### Some Random Landscape Thoughts

We all want our homes to be welcoming to those who visit. A great way to start is freshening up your yard and making it stand out. Here are a few simple tips to help enhance your yard.

- \* **Add Fresh Mulch To Your Garden Beds:** Mulch helps keep weeds at bay while giving your yard a neat and orderly appearance. Darker color mulch like brown or black makes flowers, plants and walkways pop.
- \* **Get Lawn In Shape:** Less is more when it comes to your lawn. Cutting grass too short and too often doesn't allow it to grow properly. Make sure you are using a sharp mower blade and only cut one-third of the grass blade.
- \* **Choose Proportionate Plants (keep future growth in mind):** You will want the plants to look to scale in front of your house. A mix of heights with a variation of small trees and bushes always looks good.
- \* **Add Planters to your Entryway:** A pop of color from flowers or plants is an easy way to welcome guests.
- \* **Well-Lit:** Add warm bright lighting with spotlights on pathways, plants and trees.

Happy Landscaping!
